

## BWC Financial Education Held “Oanda BWC Cup 2015)” FX Trading Competition with Oanda in The Open University of Nanhai

On March 26, 2015, BWC Financial Education partnered with Oanda to co-arrange “Oanda BWC Cup 2015” Foreign Exchange Simulation Trading Competition Briefing Seminar in The Open University of Nanhai. The official competition was scheduled to be held during March 26, 2015 to April 27, 2015 with Oanda sponsoring the winning prizes. The main purpose of holding the competition is to enhance the participants’ understanding of the financial market and their ability to apply knowledge and skills regarding financial investment in practice. In addition, The Open University of Nanhai also aims to give the students opportunity to share knowledges regarding financial investment and get more information about wealth management and investment.

In the seminar, we invited Mr. Kelvin Zhao, the Senior Manager in Greater China of OANDA, to introduce the basic concepts in the foreign exchange market, the details of the competition and Oanda’s platform for simulation trading. Registration for the competition was another session of the seminar, during which Mr. Zhao also interacted with students actively and answered their questions regarding FX markets one by one. Finally, a large number of students registered to participate in the “Oanda BWC Cup 2015”, which indicates students’ great interests in FX trading.
